Leadsquared online test

1. Test cases would be:

   New Customer will have two choices to opt for loyalty card or not. If he opts, he will get 15% discount otherwise no discount

   Existing Customer will have two choices to opt for loyalty card or he is having it from before. If he opts, he will get 15% discount otherwise if he has discount card, he will get another 20% off discount.

2. Jenny's former site was better because people trusted that parlor. For gaining trust, it takes time. For people in that location, Jenny's parlor is new. Whereas Ronnie's auto repair shop is for emergency. So, there is no bad location for an auto repair shop until it's not in the outskirts

3. Best way to test a wireless mouse we can do two tests -

   a.) A software which checks the latency positions w.r.t movements.

   b.) Play any online multiplayer game check if there is any latency between clicks and shots.

   Check for the batteries.

   Check for response time and sensitivity or DPI.

   Check for the ergonomic factor and form factor(design).
